

Liquor License Update

From Attorney Mike Willison

We received notice from the Appellate Division that the transcript of the motion hearing had been transmitted by the trial court. District I is required to file three additional copies of the transcript with the Appellate Division and serve us with a copy. He has 10 days to do that from today. After that, District I has 45 days to file its brief, unless the court issues a briefing schedule. Assuming no briefing schedule, the 45-day window begins to run from the date they serve the transcript. We will then have 30 days to file our brief, which runs from the date District I files and serves their brief. Please let me know if you have any further questions.
